

Treeno Vault™ - The fastest way to document management.

Browser-Based Network Appliance Installed on your Network

For the first time ever, Treeno Software places the power and flexibility of an enterprise class document management system within the reach of any business, regardless of size, budget or technical expertise. Built on proven, core Treeno technology, the Treeno Vault, pre-loaded with Treeno Business Edition, can be plugged into your in-house network and configured in less than 5 minutes. The front panel on the Treeno Vault allows for all network settings to be adjusted with a simple LCD interface. The Vault is built on lightning fast hardware that is supported with a three-year next-day exchange warranty. The Vault is the fastest way to begin benefitting from document management in your organization.

Benefits of The Treeno Vault

With the Treeno Vault you can tap into the benefits of a powerful document management system as quickly as the first user logs on. In addition to ease of use and convenient browser-based access, Treeno delivers the key benefits you'd expect from our industry-leading document management solution, including:

- Immediate browser-based user access
- No operating system to maintain
- Works with any scanner or Multi Function Device
- Keeps sensitive documents secure
- Works with any document type
- Automates document tracking and auditing
- Prevents lost Documents
- Saves storage space

Pre-Loaded Network Appliance

The Treeno Vault Advantage

- ▶ Installation and setup takes just five minutes
- ▶ No IT staff or specialist skills required
- ▶ Indexing and audit trails make life simple
- ▶ Edit or create your own cabinets and doc types
- ▶ Scales to an enterprise-level capacity
- ▶ A fraction of the cost of any competitive solution

"Employees spend a documented 35 percent of their time searching for necessary information needed just to do their jobs." (Source: IDC)

Treeno Vault - Your documents will stay secure and remain accessible.

Fast, Easy and Affordable.

- Easy to install - The Treeno Vault is installed by simply connecting it to your in-house network. The front panel comes with an integrated LCD screen allowing network settings to be configured without ever logging into the appliance.
- Easy to set up - It's so simple you can do it yourself. Really. Add additional filing cabinets, document types, and configuring who needs access to the documents is as simple as a few mouse clicks. It's your business so you choose what works best.
- Easy to use - Treeno Vault is based on a familiar filing model that includes cabinets, folders, sub-folders and files to organize documents, making it easy for people to find exactly what they need, when they need it. Indexing and audit trail functions ensure document accuracy and regulatory compliance while powerful search capabilities enable users to instantly access critical information with the click of a mouse. Best of all, Treeno leverages the most advanced technologies available to provide a repository that ensures data integrity and security.
